Community Sports	Not permitted	Not permitted	Can participate if fully vaccinated	Permitted for all staff, spectators & participants.

Points we are waiting for clarification

- Removal of "exercise" in outdoor recreation at 70% . Removing "exercise" from what is permitted means outdoor classes cannot continue
- Can unvaccinated kids <16 go to any indoor sports facilities with a fully vaccinated household member? (Indoor recreation for kids is specifically mentioned to resume on December 1)
- Is the list "hospitality venues, entertainment facilities, major recreation and places of worship" an exhaustive list?
- How will fully vaccinated Community Sports commence at 80% if outdoor exercise is not permitted?

Definitions

Exercise is an activity that requires physical effort and is designed to maintain or improve health. Examples include running, walking, cycling, water sports or swimming.
 Recreation includes outdoor leisure activities such as sitting for relaxation, or to eat, drink or read outdoors.
